Difficult Conversations

Most of us, at one time or another, have avoided a difficult conversation. Sometimes ignoring the elephant in the room is best, but there are times when headaches can be avoided and time can be saved if you **HAVE** the conversation.

We are not talking about difficult people, but rather difficult conversations. Most difficult conversations involve disagreement about what has happened or not happened, who said what and who did what, who is to blame and who is right. Join us for a lively presentation that will give you the insight and skills to have the conversations that need to be held.
