## PRESENTED BY:

Gail Sutter & Jenny Hill

Continuum EAP professionals, Gail and Jenny, have many years of experience in both managing employees and consulting on mental health issues in the workplace.

## The Do's and Don'ts of Responding to Mental Health Concerns in the Workplace

Mental health impairments impact one in five U.S. adults, so it's a safe assumption that someone you know will be affected, including the employees you supervise. Dealing with mental health issues in the workplace can be difficult for supervisors as they juggle the tasks of caring for their employees, getting the work done and following workplace laws and regulations.

In this session, you will learn more about:

- Common mental health disorders.
- How to communicate about mental health concerns.
- HR regulations related to ADA and FMLA.
- Dealing with performance issues.
