After registering, you will receive a confirmation email containing information about joining the webinar.

## Adversity Quotient (RESILIENCE)

Known as the most widely used way to measure human resilience, AQ is one of the most important cognitive traits a person can have in business. Having AQ will enhance productivity, problem solving, engagement and leadership.

In this training, we will discuss how to enhance your AQ, how to detect AQ in the recruiting process, and how to recognize and reward the individuals who have high AQ within your organization.
